

Covid19 Guidelines & Instructions

General Note : Since the health and safety of our attendees and staff are of paramount importance to us all participants attending this year's conference are required to observe the on-site safety rules and guidelines regarding the current COVID -19 pandemic . Please also remember to bring face masks.

Onsite and Online: Since the conference allows online and onsite participation, only approx. 50% of the attendees are onsite and therefore it is possible to continue with the event even in Covid times and limited numbers allowed for the conference rooms.

Inside the FH Krems Conference Building:

3G rule: participants need to follow the Austrian 3G rule for events. G = Geimpft (English: Vaccinated) OR G = Genesen (English: had already Covid19 and are healthy again) OR Getestet (English: tested with Antigen or PCR, valid for 48 hours).

Limited numbers per conference room: The limited numbers are shown in the room plan. If the limit is exceeded the conferece organisation team will advise to either enter another workshop or to sit in the lobby and connect online.

Tables at breaks and lunch: Lunch is prepared by a catering team and attendees are asked to stay at the tables. Once you chose a table please stick to that table. On that table you will find a sheet to enter your name and the time so that potential contact tracing can work.

Registration list to enter mobile phone and emails: Please be prepared to enter your email and mobile phone number for contact tracing at the registration , beside your name in the registration list. This will allow that potential contact tracing can work.

Seating in the conference rooms: The conference rooms include a number of tables, and each table is normally for 2 students. Due to Covid19 only one person per table is allowed.

When to carry a FFP2 mask: We assume that you will bring your own FFP2 masks. Oce you are seated you can take off the mask. When moving/walking in the building you must carry the FFP2 mask. Outside of the building you can take off the mask but need to keep a distance, where possible.

At the social events:

3G rule: participants need to follow the Austrian 3G rule for events. G = Geimpft (in English : Vaccinated) OR G = Genesen (English : had already Covid 19 and are healthy again) OR Getestet (English : tested with Antigen or PCR , valid for 48 hours).

FFP2 masks in buses: The bus transport companies require an FFP2 mask by all passengers during the entire drive.

Tables at social event : Wine tasting /dinner is prepared by a catering team and attendees are asked to stay at the tables. Once you chose a table please stick to that table. On that table you will find a sheet to enter your name and the time so that potential contact tracing can work.

Guided tours through the Sazburg Dome Residence: While walking in groups through the Salzburg Dome Residence the participants must carry a FFP2 mask.

In case of an emergency:

Disclaimer : We do our best that all attendees stay healthy and ask all attendees to stick to the rules. Last year at EuroSPI 2021 all stayed healthy , no contact tracing was necessary . Therefore the below text describes probably an unlikely scenario.

In case you feel sick and get fever inform the hotline 1450 in Austria and the local organisers: Phone 1450 and also phone Mag. Bruno Wöran +43 676 3009145.

Thank you for your support and patience. We know that all these rules are difficult but our health must be of utmost interest.
