1. Introduction

Since 2006 we have been using an e-commerce and password controlled system for

- ✓ Authors registration
- ✓ Paper submission
- ✓ Paper review and
- ✓ Final paper submission.

You have to follow the following three basic steps:

1. Registration
2. Paper Upload
3. Receiving the review notes and decisions and final paper submission.

2. Paper submission step by step

Step 1: Author Registration for Paper Upload

You have to register at http://www.eurospi.net by selecting the menu item "Submission" and follow the link "Author registration" (see Figures 1 and 2).
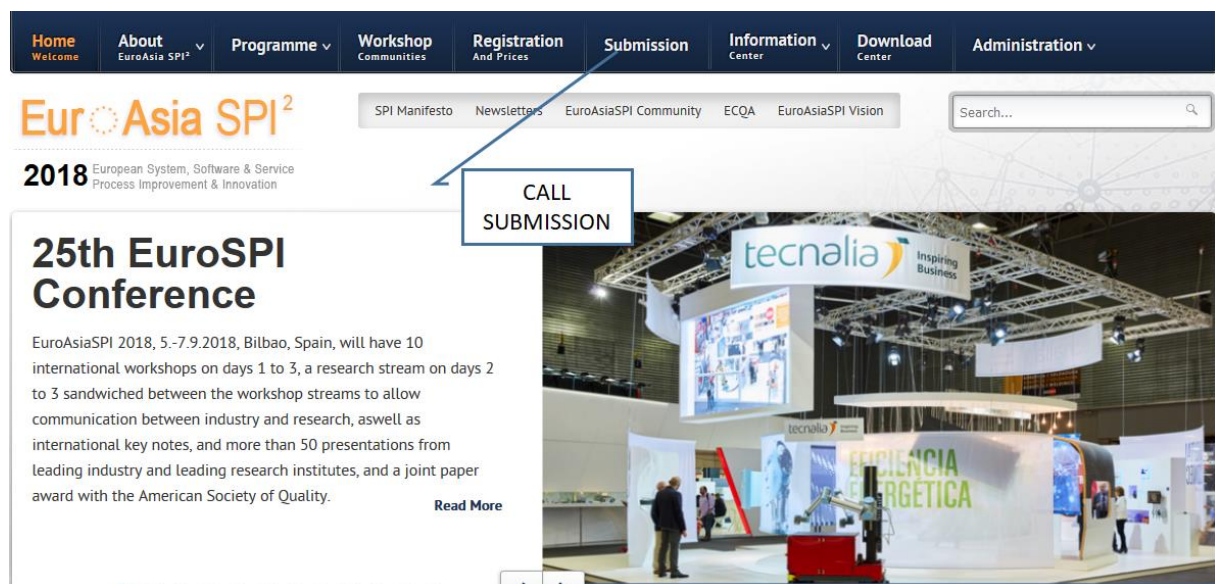

Figure 1: SUBMISSION MENU

Figure 2: Link to Author Registration for Paper Upload

> **Note 1:** Do not confuse author registration with the registration for attendance to the conference. An author registration gives you can account to upload papers, to receive reviews and to upload refined papers, but for the attendance additionally the normal attendee registration function will have to be used.

> **Note 2:** If you have already registered and you remember your login details then you do not need to register as author again, just proceed with step 2. If you register again the system will change your password and your old password becomes invalid.

In the author registration form (see Figure 3) you have to enter their email address first and press "shift". If you have registered before (in a previous EuroSPI conference) your name will be displayed. The address details are not displayed and have to be entered again. This is due data protection.

By choosing the button "send" you will be registered with the entered login name and a random password will be generated. Your userID (login name) and your password will be sent to you by email. You will receive an email with your login details. If you did not receive an email send a request with email title "EuroSPI Password" to rmess@iscn.com to check your password.

If you have registered before, the system (after entering your email and pressing the shift key) will show your name.

You still have to enter the address details again. This is due to data protection.

Registration Form

E-mail Address	rmess@iscn.at
First Name	Richard
Last Name	MESSNARZ
Company Name	
Address	
Postcode & City	
Telephone	
Fax	
Country	AUSTRIA
Login name	rmess

Your email has been found in the database. Please, check if your name is correct, please enter your contact data.

Reset   Next

If you choose "next", the system will send you your new password by email.

Figure 3: Author Registration Form

Step 2: First Paper Upload

After registering you can select between

- ✓ Workshop Paper Submission
- ✓ Research Paper Submission
- ✓ Experience/Industry Paper Submission
- ✓ PhD Paper Submission

You have to choose then either research paper of thematic topic paper submission and log in to get access to the upload function (see Figure 4).

Paper Submission and Author Registration

Author/Reviewer Registration

Since 2006 we have been using an e-commerce and password controlled system for:

- Authors/reviewer registration
- Paper submission
- Paper review and
- Final paper submission and
- Presentation upload

⚠ Please read and apply the Upload and Working Guide for Authors. More...

Information about Paper Submission

Research papers shall be 8-12 pages, and address the below research paper topics in the call.

- Research Paper Submission ─────────────── Click the Link to Submit a Research Paper

Thematic topics papers shall be 8-12 pages, and address one of the 10 thematic paper topics per workshop community below.

- Thematic Paper Submission for one of the 10 workshop communities ── Click the Link to Submit a Thematic Topic Paper

Research Paper Submission

Research papers should describe innovative and significant work in software process improvement, which is relevant to the software industry. The papers should be readable for a scientific and industrial audience and support claims with appropriately described evidence or references to relevant literature.

18 selected papers will be published in the Springer Communications in Computer and Information Science (CCIS) series. CCIS is a spin off from LNCS and the same typing instructions apply as for the Lecture Notes in Computer Science Series.

Research Paper Upload

Please read first the **author submission guide, and receive an author account, and then you can login and upload.** More...

Please read the SPI Manifesto (find relationships to values and principles or propose new values and principles to be added), give feedback, and help EuroAsiaSPI[2] to develop it.

Research Paper Login to Upload ─────────── Click the Button Research Paper Login to Upload

**Figure 5: Login for Research Paper Upload**

Figure 6: Login for Thematic Paper Upload

After logging in you will see your private upload and working area. In this area you can upload papers by choosing the document type, entering the document title, uploading the file and choosing FIRST VERSION or FINAL (CAMERA READY) VERSION (in the combo box). (see Figure 7)

Important Note:

FIRST VERSION represents a paper that is submitted for review.

FINAL (CAMERA READY) VERSION represents a paper that has been refined based on review comments and is being submitted for publication.
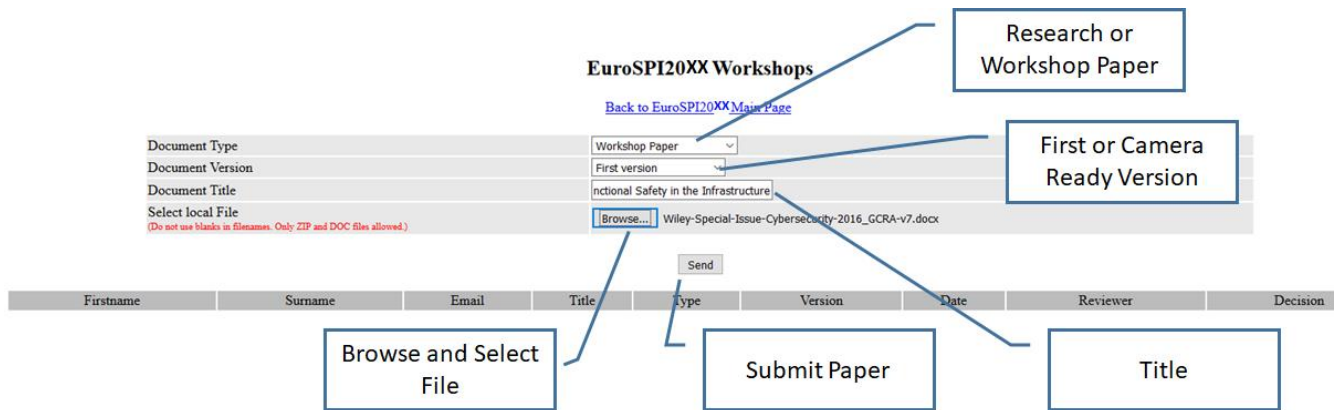

Figure 7: Upload FIRST or FINAL (CAMERA READY) Paper

Step 3: Receive Review and Final Paper Version Upload

After logging in you will see your private upload and working area. When scrolling down you can see the papers you have submitted. In this submission table (if reviews have been performed and uploaded) you can directly see the reviews and the review decision (see Figure 8).
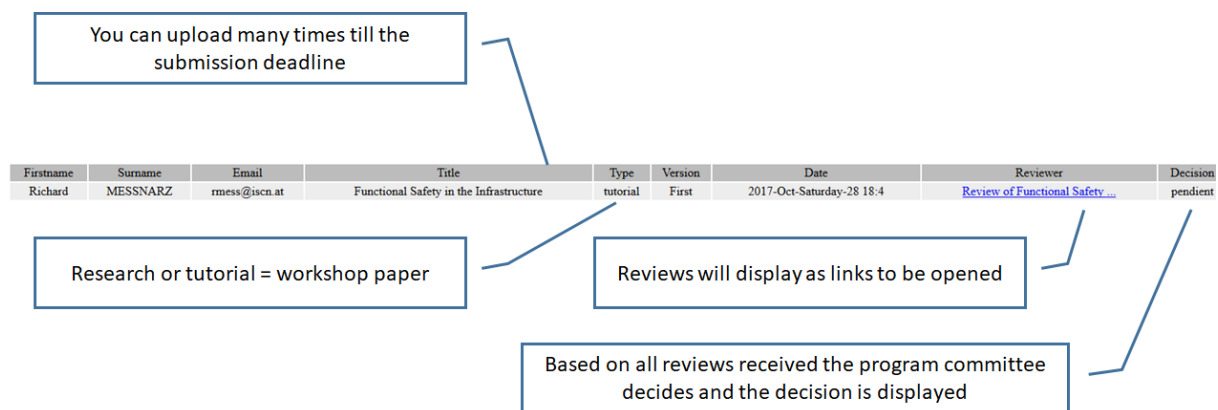

Figure 8: Receive Reviews for Refinement

After reworking your paper please upload this paper as FINAL VERSION with the paper upload function again (see Figure 9).

Important Note:

For the first version of a paper only one copy (the latest) will be kept by the system.

For the final version of a paper only one copy (the latest) will be kept by the system.

After reworking your paper please upload this paper
as FINAL (CAMERA READY) VERSION.
