## Share your book's success on social media!

Why not further increase your publication's reach? It might also be helpful for an audience beyond your core community. Share a message about your work on your preferred social media channel – if you like, just copy and paste the following:

**My book is helping solve some of the global challenges #SDG. Check out [my eBook](#) @SN\_Authors**

Our books and journals share findings that address the world's sustainable development challenges.

We bring together research and other communities of people who are striving to solve these challenges. [Find out more.](#)

\*) The usage figure represents the number of chapter downloads for your eBook on SpringerLink (January - September 2020). The Altmetric attention score provides an indicator for the attention (e.g. in social media) your work has received. Altmetric (altmetric.com) begins collating the online mentions and shares of your research across the sources they track as soon as it's published.
