Top 10 reasons to be certified by EuroSPI and become part of the community

1 **29 years of European system software services improvement**

EuroSPI brings together an established community of experts from leading industry and research, who jointly contribute to an annual conference.

2 **Top-level infrastructure for EuroSPI Academy courses**

EuroSPI Academy courses are set up within state-of-the-art learning portals, using exercise materials and tools to support learning by doing.

3 **EuroSPI Academy with hundreds of attendees**

EuroSPI runs the DRIVES Learn Compass Portal, where more than two thousand engineers from the leading automotive industry are attending MOOCs. EuroSPI has been running the EuroSPI Academy since November 2020 attracting hundreds of trainees.

4 **Worldwide dissemination (>500000)**

EuroSPI has established collaborations with publishers and launched a renowned book series at SPRINGER CCIS with more than half a million downloads. The CCIS editorial team includes experts from Europe, the USA, China, Japan, Russia, India, and South America.

5 **EuroSPI certificates are recognised by the Automotive Skills Alliance (ASA) in the EU**

EuroSPI certificates are issued in cooperation with DRIVES and the Automotive Skills Alliance (ASA). The ASA was founded by the EU blueprint projects DRIVES and ALBATTS with support from the European Automobile Manufacturers' Association (ACEA).

6 **EuroSPI offers networking options towards European cooperation**

EuroSPI organizes annual workshops on thematic topics (e.g. safety, cybersecurity etc.), to which leading researchers and industries are contributing. Training course participants and examinees are granted a 20% price reduction.

7 **Best practices elaboration in European working groups**

The knowledge taught in the EuroSPI Academy courses was developed in working parties (e.g. SOQRATES) including leading industry in the electronics and automotive domains.

8 **Proven-in-use exam system with more than 12,000 exams**

EuroSPI employs a proven-in-use exam system, that has been used for over twelve thousand exams with different certifiers and will be used exclusively by EuroSPI Certificates and Services in the future.

9 **Number #1 assessment tool Capability Adviser**

EuroSPI owns, sells, and uses the Capability Adviser tool, which enables (online) team assessment for different norms (e.g., Automotive SPICE, ASPICE etc.) and can be configured for in-house standards. Leading Tier 1 and Tier 2 automotive companies are using the Capability Adviser.

10 **Assessments of experts' skills supported by the EuroSPI exam system**

EuroSPI has an advanced exam system, using team roles, such as Assessor and Exam Participant to support assessors who evaluate expert skills based on provided evidences in different domains (e.g. functional safety, cybersecurity etc.). Where high risk is involved a simple multiple-choice test is not sufficient.
